

“I support your position in full, I placed reform of planning and development as the most important issue for this electorate on my website:

<https://www.victoriawalker.com.au/>

“Rather than mere finger wagging and rhetoric, I am committed if elected, to taking specific action on the 4 areas I consider of greatest concern.

“I am committed to setting up a panel to draft a Bill to replace the current debased EP&A Act. It was once an outstanding piece of legislation, I worked with planners who came to NSW from the UK & Canada to work under it and understand its potential. It has been utterly debased by the current coalition government.”

Independent Candidate Victoria Walker
